SHEEP—SHEEP—SHEEP

Important to Sheep Farmers.

A sure cure for the Scab in Sheep.

The undersigned has the pleasure of announcing to the Wool Growers of this country, that he has now received a large quantity of the, celebrated *South Down Sheep Wash.*

This valuable preparation is highly recommended for its safety, convenience, utility and economy. It is a concentrated extract, one pound of which is equal to ten pounds of tobacco, retaining in this compact form all the properties of the raw material, at the same time saving the very disagreeable and tedious operation of preparing the wash as is usually practised in this country. The only labor required with the article now offered to the public, is to stir the paste into the quantity of water needed for the Sheep that are intended to be dipped. This Sheep Wash is highly recommended and extensively used by the wool Growers of Australia and South Africa. The Samples that have been used by some of the Estancieros of this Country, have given the most perfect satisfaction, and are recommended by them as the most efficacious remedy ever used in this country for fugitive pedlars supply either personally or by letter to

C. S. Howes.

At Messrs. *James Bell & Co.* (Calle Defensa, esquina Moreno.)

The most satisfactory recommendations of its perfect safety and utility, from the principal estancieros of this country, may be had on application to the undersigned.

THE LARGEST

WOOD YARD IN TOWN.

Messrs Geo. Bell & Son beg to notify the public that they have the largest and best selection of American Pine in Buenos Aires, Boards and Scantling of every dimension, cut purposely for corral blades, room floors and shingle roofs. Wire, which is at present scarce, they have a large supply of.

Hard Wood and Nandubay Posts, cut expressly for corrals, principal posts &c., at the very lowest market prices. Being so long established in the trade, they os compete in price with the largest importers in the country. Their new Yard in the Plaza Constitucion, is opened expressly for the convenience of their country friends.

SAUNDERS & KEYSER,

ENGINEERS, MILLWRIGHTS, SMITHS, &c.

117—Paseo de Julio—117

James Saunders begs to announce to the public that he has entered into Partnership with Albert Keyser for the above business, at the premises formerly occupied by Mr. Thomas Reed, and lately in possession of J. Saunders.

Wool presses, cranes, and destroying machines, wire-stretchers, or screws, of a superior quality, for erecting wire fences; wire rodens, &c.; 1 horse-power chain pumps for camp and charge purposes, superior and complete; steam engines, Ships smith-work in general, and all kinds of machinery, repaired at the shortest notice, and on the most reasonable terms.

The great share of patronage which he has enjoyed since commencing business is the best assurance he can give his friends of promptness and fidelity in the execution of all orders entrusted to him; and with this view he has taken as partner no active and experienced man of business, who will assist him in the important profession.

Notice Extraordinary,

OPENING OF THE GREAT

EMPORIUM OF LIGHT

OF THE LA PLATA

At No. 59 CALLE FLORIDA.

The undersigned would respectfully announce to the inhabitants of Buenos Aires and the Argentine Republic, that having completed his arrangements, he has opened the above named establishment to the public on the 23rd May, with an immense supply of the celebrated KOSMOSIL, and a stock of KOSMOSINE Lamps, imported from Europe and North America, expressly fine marked, which for.

Variety of

Elegance and

Completeness

in every respect, is unsurpassed in the Globe, all of which will be offered for sale at the most reasonable prices. He would moreover invite the attention of the public to the many advantages of the admirable illuminator over all other light giving agents. Kerosene Oil being a gross extract from bituminous coal, contains all the illuminating properties of coal gas, and produces a clear, white light, surpassing Gas light itself in brilliance and of such remarkable softness and purity as to render it infinitely the best light in the world for the eyes, which is cool to the touch half as much as gas and is much more economical than the best inferior light in use. The Oil is very cleanly, inodorous, and perfectly safe and the lamps are so simple that they can not be spoilt or order. The unquestioned superiority of Kosmosil Oil over all other artificial illuminators, having been well established throughout Europe and North America, (where it has met with adoption unparalleled in the history of improvements), it is now confidently offered to the public as the most perfect and in every respect most desirable illuminator yet introduced. All are invited to call and see the light and judge for themselves; the evening being the best time, to see the establishment.

The Jesuits grew cotton extensively, and manufactured it —not only for their own domestic purposes, but exported yearly a large quantity of hammocks, table-cloths, ponchos, and similar articles.] We cannot but strongly urge the observations on the attention of our manufacturers and spinners, as well as on the Board of Trade, who invest in their power to give an impetus to efforts looking by individuals and by friendly Governments, who would be glad to exchange the raw material for the produce of our looms;—assuming over our receipts, and apportioning with the sinister ends which exhibit a portion of our own mercantile class, is now suffering, is not the way to cultivate or provide against any future contingencies. It appears to us that a monthly steamer running to Buenos Ayres to Cuyaba in Brazil, a distance of 2,400 miles, and even two steamers to ply on the Plate and the Uruguay, shortly a portion of surplus English capital will soon find its way to where it would be sure to yield a return.—Liverpool Albion.

English & French Expenditures
(from the Economist)

In comparing the taxation of this country with that of foreign countries, again, a most important question rests frequently unnoticed. It is said, why is it we are much more Francs than we should have money than we do." But it is overlooked that our revenue is burdened with a charge to which none of the French have anything to compare, viz. the interest of our debt, amounting to one half as much. Let us take the French item in 1837 [the last year for which we have the exact figures] and see how the comparison stands:—

Total expenditure as in the Budget	£
Less interest of debt	
Optional expenditure	£

Optional expenditure £ or 36 millions. The expenditure of France £ [illegible] figures £ [illegible] England is not an economical country in the world. One other of these remarks is worthy of attention, viz. the facts, and not to allow [illegible] presents the case in a false light.

SHEEP—SHEEP—SHEEP

Important to Sheep Farmers.

A sure cure for the Scab in Sheep.

The undersigned has the pleasure of announcing to the Wool Growers of this country, that he has now received a large quantity of the, celebrated *South Down Sheep Wash.*

This valuable preparation is highly recommended for its safety, convenience, utility and economy. It is a concentrated extract, one pound of which is equal to ten pounds of tobacco, reasoning in this compact form all the properties of the raw material, at the same time saving the very disagreeable and tedious operation of preparing the wash as is usually practised in this country. The only labor required with the article now offered to the public, is to stir the paste into the quantity of water needed for the Sheep that are intended to be dipped. This Sheep Wash is highly recommended and extensively used by the wool Growers of Australia and South Africa. The Samples that have been used by some of the Estancieros of this Country, have given the most perfect satisfaction, and are recommended by them as the most efficacious remedy ever used in this country (for further particulars apply either personally or by letter to C. S. Howes.

At Messrs. *James Bell & Co.* (Calle Defensa, esquina Moreno.)

Notice Extraordinary,

OPENING OF THE GREAT

EMPORIUM OF LIGHT

OF THE LA PLATA

At No. 59 CALLE FLORIDA.

The undersigned would respectfully announce to the inhabitants of Buenos Aires and the Argentine Republic, that having completed his arrangements, he has opened the above named establishment in the public on the 23rd May, with an immense supply of the celebrated KOSMOSOL, and a stock of KOSMOSOL Lamps, imported from Europe and North America, expressly fitted for which for.

VARIETY OF ELEGANCE and COMPLETENESS

in every respect, is unsurpassed in the Globe, all of which will be offered for sale at the most reasonable prices. He would moreover invite the attention of the public to the many advantages of the admirable illuminator over all other light giving agents. Kerosene Oil being a gross extract from bituminous coal, contains all the illuminating properties of coal gas, and produces a clear, white light, surpassing Gas light itself in brilliance and of such remarkable softness and purity as to render it infinitely the best light in the world for the reason which is contained in the short space of a month we gave a month more economical than the most inferior light in use. The Oil is very cleanly, inodorous, and perfectly safe and the lamps are so simple that they can not be spoilt or order. The unquestioned superiority of KOSMOSOL over all other artificial illuminators, having been well established throughout Europe and North America (where it has met an adoption unparalleled in the history of improvements), it is now confidently offered to the public as the most perfect and in every respect most desirable illuminator yet introduced. All are invited to call and see the light and judge for themselves; the evening being the best time, to see the establishment.

TUESDAY, 23d JULY 1867.

Session of Congress.

On account of a severe cold, we are losing 31 in attendance at the reading of the message of the President, but we have managed to get through it, and have found it a very able document. Mr. Johnson is evidently determined to do justice to the Government of which he is at present the head. Of course, there is a strong opposition party in Congress, headed by the Hon. Messrs. Richards, Fortuna, Gutierrez, and Pico, but we have no fear of the Government project passing in the Senate, without exception. The Hon. Messrs. Rosas, Oroño, Gorostiaga, and Pico, have presented a counter-project, which is as follows:

Art. 1. The National authorities shall continue to reside in B. Ayres until the nomination of a permanent metropolis, according to the Constitution.

Art. 2. The National Executive shall prepare suitable edifices for the National authorities in the said metropolis, taking into consideration the financial position of the Nation.

Art. 3. The National archives, and the Registers shall be at present removed from Paraná to the old capital.

Art. 4. The Legislature, before whom the Executive has laid the project of the order of the day — Pacific Art. 39, with the exception of water discussion — with the additional matter — Ayres, of 5 per cent on — and 1 1/2 on imports, to — ports.

Gorostiaga replied that — could not oppose the — rances of extraordinary — Government to submit — fashion and confusion without — these Estados of every — necessary to stand by — not wish we protest. — to a limit — and the — under — fashion.

Mr. — the — of — the — the — the

which we select in addition to the labour of the Cliquito Indians under direction of the Jesuit missionaries:—"Another important office was that of the Captain de Teyedores, or captain of the weavers. The Jesuits grew cotton extensively, and manufactured it—not only for their own domestic purposes, but exported yearly a large quantity of hammocks, table-cloths, ponchos, and similar articles.] We cannot too strongly urge these observations on the attention of our manufacturers and spinners, as well as on the Board of Trade, who have it in their power to give an impetus to clothmaking by individuals and by friendly Governments, who would be glad to exchange the raw material for the produce of our looms;—assuming over our receivables, and especially with the distress under which every a portion of our own industrial class is now suffering, is not the way to cultivate or provide against future contingencies. If cheaper corn is now a much greater relative to Buenos Ayres to Cuyaba in Brazil, a distance of 2,400 miles? and even on steamers to Peru and the Pacific, Uruguay. Surely a portion of the plus English capital will soon find its way to where it would be sure to yield a return.—Liverpool Albion.

English & French Expenditures
(from the Economist)

In comparing the taxation of this country with that of foreign countries, again, a most material reason is frequently overlooked. It is said, why do we pay much more France do, or why do we borrow much more money than we do." But it is overlooked that our revenue is burdened with a charge to which none of the French have to contribute, viz., the interest of our debt (£28,000,000), and of the French debt (£200,000,000) a half a month. Let us take the following item in 1837 [the last year for which we have the exact figures] and see how the comparison stands:—

France.

Total expenditure as in the Budget ... £
Less interest of debt ... £

Optional expenditure ... £37,000,000
